WHY HAVE GRAY HAIR?

Why should you have Gray hair? Why should you allow yourself to become prematurely old looking? It is not necessary. Why not restore the natural youthful color to your gray and faded hair? Why not be youthful and attractive looking? Restore it naturally, easily, safely—do it in a way that will not make you conspicuous, that no one will know you are using anything. Don't use dyes, they give your hair an unnatural look—use HAY'S HAIR HEALTH—it will restore the color—keep your hair full of life, soft, glossy, lustrous and handsome—give you hair that all will admire and covet. Many thousands of women are doing it; are renewing their youthful looks in just this way—Why not you? Removes dandruff, too. It's not a dye—harmless and ready to use when you get it. Results are guaranteed satisfactory or your druggist will refund the purchase price—25c, 50c and \$1.00. Get a bottle to-day and be convinced. Always ask for and get

LABOR AND BIG BUSINESS TO PLAN HOW TO REDUCE COST OF LIVING

(Continued from Third Page.)

to give you the benefit of their best thought. The food producers, like Armour, Swift, Morris, Cudahy, the butter, egg and milk men, the clothing manufacturers, the Merchants' Association of New York, the Chamber of Commerce, the American Clothing Manufacturing Association, the American Grocers' Society, the organizations representing the farmers and the fruit growers, should, together with any others you may think of, be invited to advise with you.

"It occurs to me that one phase of the matter which should be given attention is that of waste. Not only waste in the homes but in warehouses, factories and stores. The Joint Report on Foods and Markets made by Gov. Whitman's Market Commission and Mayor Mitchell's Food Supply Committee, both of which committees had George W. Perkins for chairman, and the Wicks Legislative Committee, of which Charles W. Wicks was chairman, revealed the fact that hundreds of cars of farm produce and thousands of tons of sea foods are spoiled and wasted on the railroad tracks. It would be well to inquire if these evil conditions still exist. The New York State and New York City food and market officials will doubtless be glad to give you information concerning the waste in markets and how to remedy it. Many other points bearing on the general subject will occur to you as you proceed.

"I hope that you will permit me to impress on you that a long and tedious investigation of causes and effects is not desired. Information on those phases may be had in abundance from published reports resulting from numerous surveys. The object of your committee should be to learn what methods can be worked out to use labor's vast organized purchasing power to reduce the cost of living.

"You should not inquire into the subject of profits made by producers and dealers or any other persons, nor should you allow the conferences to discuss labor's wages, hours, conditions or any other matters of that nature. The State convention would not approve your course if you engaged in discussion of labor matters, and the business men would doubtless resent any inquiry into profits. So please confine your inquiry strictly to the subject in hand.

"JAMES P. HOLLAND, President New York State Federation of Labor."

CONFERENCES MAY BEGIN MONDAY, LASTING TWO WEEKS.

Chairman Pierce received President Holland's letter this morning and immediately sent out a call for a meeting of the Union Labor Anti-Bolshevik Committee at No. 37 East 28th Street, at 3 o'clock this afternoon.

"The committee will lose no time getting to work," said Mr. Pierce. "I will recommend that the consultations with business men begin next Monday and continue every day for two weeks. That will leave us one week before the State convention meets to consider our report and deliver it to President Holland.

"I hope that business men will consider it their duty as good citizens to help the committee with their advice. The Merchants' Association of New York has given us the use of their assembly room for our consultations with business men. The meat packers, farmers' associations, railroad representatives, commercial organizations, clothing men and shoe manufacturers will be asked to meet with us. Business men will be welcome to participate in the consultations without formal invitation. The committee will want to hear from every man who has a sensible suggestion to offer."

"The papers which accompanied President Holland's letter included clippings from The Evening World bearing on the forthcoming increase in the price of clothing, food and rents.

"These proposed increases are appalling," said Mr. Holland, this morning. "Just think of it, 20 to 40 per cent more for shoes, 25 to 50 per cent more for men's clothing, women's and children's wear mounting steadily in price, rents constantly going up, threatened increases in the cost of food! Will the thing never stop?"

"We hear on all sides that demands for increased wages are responsible. That is untrue. I doubt if wages are responsible for 1 per cent of the average increase. The other 99 per cent is scattered in all directions. I won't say, in connection with the present movement, that profiteering is to blame, although millions of dollars are under that belief. I will not discuss wages, profiteering or anything of that nature in this connection.

HOW ORGANIZED LABOR MAY FIGHT BOLSHEVISM.

"This movement is designed to bring capital and organized labor together in consultation on plans to decrease the cost of living without stepping on the toes of either. It is a move to relieve the distress which all people are suffering, distress which if we don't relieve it will result in Bolshevism running wild in this country.

"The Socialist, I. W. W. and Bolshevik newspapers, books and lecturers are making strong propaganda out of the high cost of living. They are gaining recruits by thousands every week. Organized wage earners have in general succeeded in getting higher pay for themselves. But the higher cost of living has outstripped the higher wages. The \$10-a-week man to-day is not as well off as the \$20-a-week man of ten years ago. The Socialist and Bolshevik wage earners whose wages have not been materially increased is terrible. If the threatened increases in the cost of shoes, clothing, food and rent become effective next fall, or any other time, there must follow a demand for a scale of wages high enough to meet the increases. If it were a matter of living expenses are increased \$10 or \$15 or more a week, the employers must pay him a wage sufficient to meet the cost of living or he and his family cannot live.

"There are dangerous reefs ahead. Three vessels are steaming head on for these reefs. One is named Government, the second Capital, the third Labor. The reefs are charted and it is broad daylight. If the pilots of these ships do not avert from the dangerous course into a safe channel the wreck of these vessels will be on their own heads. The pilot of the good ship Labor has proposed to the pilot of Capital that they together make a safe course for their vessels and for Government. Labor awaits Capital's reply and has no doubt that they will work out a safe course."

POLK TAKES HIS PLACE AT PEACE CONFERENCE

Settlement of Thrace Question Only Remaining Difficulty in Bulgarian Treaty.

PARIS, July 29.—Frank L. Polk, the American Under Secretary of State, who will take the place of Secretary Lansing at the Peace Conference, arrived in Paris to-day. Mr. Polk had a conference with the American Peace Delegation and will attend the meeting of the Council of Five this afternoon.

Settlement of the Thrace question is the only remaining difficulty of the Bulgarian Treaty.

The efforts of Foreign Minister Tittoni of Italy to establish an inter-allied commercial alliance similar to that which existed during the war are not meeting with success. America has made it known that she does not favor the suggestion.

Tittoni's programme, it was stated, means that America must guarantee Europe's debts and supply food and other necessities at the lowest possible cost. It was asserted in official circles that Tittoni hopes to take up the question with Wall Street financiers in case the American Government does not accept his proposal.

FORD OPPOSED TO WAR; NOT THE NATIONAL GUARD

Counsel Mentions Chicago Riots as Witness Gives Auto Maker's Views.

MOUNT CLEMENS, Mich., July 29.—Cross examination of Frank L. Klingensmith, a witness for Henry Ford, who is suing the Chicago Daily Tribune for \$1,000,000 on a charge of libel, was resumed to-day. Asked if Ford was opposed to the National Guard, the witness replied:

"He was opposed to war."

"Well, that includes the National Guard," asked counsel.

"Not necessarily. The Guard might be used for law enforcement, such as that in Chicago yesterday."

"Oh, that's it," said the lawyer. "He didn't oppose the Guard, because, if might be useful to protect his plant?"

Mr. Klingensmith corrected his testimony of yesterday, to read that Ford's salary remained at \$10,000 until 1918, when he was made President of the company and it was raised to \$75,000.

"In 1918 Henry Ford gave \$200 shares of stock of the company, but I told him his salary should be advanced," said the witness. "Mr. Ford said that he did not want his son to have more money; that he had enough with his dividends."

BOY BURGLARS BIND AND GAG BROOKLYN BANK WATCHMAN

Two colored boys turned bank burglars early this morning and robbed the Mechanics Bank, Fulton Street and 112d Hook Lane, Brooklyn. Both were captured after shots of the watchman, Robert Jones, also colored, whom they bound to a chair and gagged, attracted the attention of police.

The prisoners, James Harris, sixteen, and John Mayo, fifteen, who gave their address as No. 16 Herkimer Street, were arrested by Police Sergeant and Detective Cunningham and Brozman. Harris, whose father was at one time employed by the bank and lived in the building is said to have visited the bank Sunday night, with Mayo, went up the fire escape and into the bank offices. There they took four revolvers and forty cartridges. Two of the guns were sold in the Bronx for \$10.

Masked with handkerchiefs, the boys produced their guns and ordered the watchman to hand out his money. He handed over \$15. Then they sat him in a chair and bound him with a rope, gagged him with a towel and started to leave the building.

MOVIE ACTRESSES AND THEIR HAIR

Did it ever occur to you that every movie actress you have seen has lovely hair, while the most popular count their curls as their chief beauty? In fact, many are leading ladies just because of their attractive looks. Inquiry among them discloses the fact that they bring out all the natural beauty of their hair by careful shampooing, not with any soap or make-shift, but with a simple mixture by putting a teaspoonful of canthox (which they get from the druggist) in a cup of hot water and applying this instead of soap. This full cup of shampoo liquid is enough so it is easy to apply it to all the hair instead of just the top of the head. After its use, the hair dries rapidly with uniform color. Dandruff, excess oil and dirt are dissolved and entirely disappear. The hair is so fluffy that it looks much heavier than it is, its luster and softness are delightful. Adv.
